

WHAT CBS...

OUR CREW

Bob Smith just got back from rubbing elbows and easing border tensions with the Mexicans in Puerto Vallarta. Ironical that Puerto Vallarta roughly translates to "the port of Mexican elbow-rubbing". This Mexican extravaganza was gifted to CBS by their modular supplier in appreciation of their good work. Welcome home Bob. We've missed you. Now you can get back to tiling and grouting the bathroom of that new home on Creamery Road in Egremont.

Tile work on Creamery Road in Egremont. Shower features 2 shower heads and custom tile work by CBS - Bob Smith

LINDA'S HEALTH

We would like to give you an update on Linda's Cancer. As many of you know, she was diagnosed with Non-Hodgkin's Follicular Lymphoma in May of 2006. At the urging of her oncologist she underwent 8 cycles of chemo through November of that same year. We are incredibly blessed and happy to report that the cancer has been in remission since.

Linda continues to focus on her wellbeing and attributes her current clean bill of health to an improved diet focusing on organic foods, the removal of refined sugars and flour products, dietary supplements, as well as acupuncture and an intensified exercise routine, going to the gym three times a week.

WHAT WE DO.

Modular Homes | Stick Built | Design Build | Addition/Renovation | Landscaping Services
